SKILLS

- Java
- TypeScript
- PostgreSQL
- Vue.js
- AWS
- Okta
- Node.js
- Magnolia CMS

LANGUAGES

Polish - native

English - advanced

German - intermediate

PROFILE

I am a passionate person with a keen interest in programming, sports and music. I enjoy constantly learning and challenging myself. I am eager to embark on a journey of growth and development, and I am confident that my strong work ethic and positive attitude will serve me well in any professional setting.

EXPERIENCE

TBSCG - JUNIOR WEB DEVELOPER

Jul 2023 - Aug 2024

I collaborated with clients to implement technical solutions using TypeScript, Java, PostgreSQL, and Vue.js. I earned the AWS Cloud Practitioner Certificate, enhancing my cloud expertise. I created and maintained RESTful API endpoints and contributed to the development and maintenance of a management dashboard for dealers and clients, improving user experience.

EDUCATION

APPLIED COMPUTER SCIENCE IN ENGLISH (THIRD YEAR)

Oct 2021- Present

Wroclaw University of Science and Technology

PROJECTS

EDUVY – INTEGRATED REMOTE TUTORING SYSTEM (IN PROGRESS)

Project for engineering thesis. It is planned to develop a service part providing a REST-style API and a client part running in a web browser. I am developing frontend with Vue.js and also helped with developing backend in Java.
